WHO VISITS

Florida families actively searching for autism services — parents, caregivers, and adult autistic individuals navigating providers, schools, insurance, scholarships, daycares, and legal questions. **100% Florida. 100% autism-focused.**

Heavily organic search traffic. **1.9% click-through rate** — above the niche-directory average. Repeat visitors during major life decisions: diagnosis, school choice, IEP cycles, transition planning, and post-incident legal needs.
